WOMEN NEED NOT BE DISCOURAGED.

The nervous tension under which most of our women constantly live affects the female organism seriously. Heavy household burdens, social gayeties, work in some commercial establishments, any of these duties seem impossible to women who are ill and yet they keep up for a time under pressure of the demands upon them. When they do break down, the advice and treatment they receive from their family physician don't go to the root of the trouble and they get no better. They are discouraged, worn out, tired of life. The great specialist in women's diseases, Dr. Greene, of Nervura fame, 148 State St., Chicago, Ill., has shown thousands of women who thought themselves hopeless invalids the way to health. His office is open to all women for free consultation and advice, and if you write to him about your case, he will advise you by mail absolutely free of all cost and confidentially. The glorious remedies discovered by this profound physician are an invaluable boon to women. It costs nothing to be put on the road to health, and all ailing women should write Dr. Greene at once.

Stonewall Jackson at Chappaque.

The infantry suffered terribly. It was impossible to advance along the narrow track, and when the guns were ordered up the situation was in no way bettered. Nearly every horse was killed or wounded. A deep ditch, cut across the road, hindered effective action, and the only position where reply to the enemy's fire was possible lay beyond this obstacle. Despite the losses of his command, Jackson managed to lift one gun across by hand, but his men became demoralized. They left their posts.

The example of their lieutenant, walking up and down on the shot-swept road and exclaiming calmly: "There is no danger, see? I am not hit," failed to inspire them with confidence. Many had already fallen. The infantry, which held its ground with difficulty, had disappeared, and General Worth, observing Jackson's perilous situation, sent him orders to retire. He replied it was more dangerous to withdraw than to stand fast, and if they would give him 50 veterans he would rather attempt the capture of the breastwork.—Henderson's "Stonewall Jackson and the Civil War."

NO TARIFF REVISION.

None the Coming Session Said Chairman Dingley.

THE WAR TAX WILL STAND.

Government Will Need the Revenue Produced by It For Some Time—Other Matters Need Consideration—Don't Favor Expansion on Large Scale.

WASHINGTON, Nov. 15.—The Post stated that the war tax will not be abolished at the coming session of congress and that there will be no revision of the tariff whatever. It bases this announcement upon the positive statement made by Chairman Dingley of the ways and means committee, who in an interview said: "The government will need for some time all the revenue produced by the war taxes. During the month of October the war expenditures exceeded the war revenue by some \$14,000,000, and this month they will be \$10,000,000 in excess. This being the case, there will be no changes at least this fiscal year. The war revenue will continue in force and unchanged, except perhaps in a few minor administrative features, for at least a year longer."

"It is hardly necessary to add," continued Mr. Dingley, "that there will be no revision of the tariff, although I have seen some statement to the effect that such a revision is contemplated. The session is limited to three months," he said, "and that short period will be mainly occupied in passing the appropriation bills, in enacting new laws for the regular army and deciding upon the legislation necessary for the government of Hawaii. In addition to these important matters the usual number of routine matters will arise. From the present outlook the session will be well under way before the treaty of peace with Spain will be laid before the senate, and the ratification of that document may not be accomplished long before the 4th of March arrives."

"Will that necessitate an extra session?" "It is, of course, impossible," said Mr. Dingley, "to know what will arise between Dec. 1 and March 4 next, but so far as the present outlook can form a basis for judgment, I should say that no extra session will be necessary or desirable unless some new question should arise. In the first place, we shall not know until the treaty of peace has been ratified what new possessions we are to have and what legislation is necessary for them, and even then we will be in no position to act intelligently."

"I think that the military administration ought to be continued for at least a year longer. Military administration is the maintenance of order, the enforcement of sanitary regulations, the assistance to those who are in need of assistance to those who are in need of assistance to those who are in need of assistance. It will bring order to the territory, it will afford us time to consider the proper legislation, and it will certainly when it is regular session in next year we will be in a position to consider the proper legislation, and it will certainly when it is regular session in next year we will be in a position to consider the proper legislation."

"For my part," added Mr. Dingley, "I hope that the territory to be added will be no larger than is absolutely necessary. I realize that in some cases it may be easier to hold than it will be to let go, but at the same time I hope that the treaty, when it is presented to the senate, will provide for the acquisition of a minimum amount of territory."

ABANDON THE TEMPLE.

The W. C. T. U. Convention So Voted, but the Matter May Be Considered Again.

ST. PAUL, Nov. 15.—The W. C. T. U. national convention decided by a vote of 285 to 71 to abandon the temple project as an affiliated interest. Five hours of animated, vigorous and occasionally bitter and personal debating was necessary before the vote was reached. The opposition to this action fought every inch of ground, but most of the leaders were against them and carried their point. Just before adjournment, Mrs. Dunham presented some resolutions on the subject which may precipitate the whole controversy once more if she calls them up today, as expected.

HOOLEY WAS CONTRADICTED.

Sir William Marriott Aroused the Excitement of the Spectator's Wrath.

LONDON, Nov. 15.—The hearing in the case of Ernest T. Hooley, the bankrupt speculator, was resumed and Sir William Marriott was called to the stand. He denied the statement made by Hooley that he had paid him \$1,000 to introduce the speculator into the Carlton club. He branded Hooley's statement as "a most abominable lie." The witness admitted that a check for \$50,000 had passed through his hands which Hooley, contrary to the advice of the witness, wished to contribute to the funds of the Conservative party, thinking that he would consequently be made a baronet. The check, Sir William said, was returned to Hooley.

During the testimony Hooley became greatly excited, and upon one occasion threatened to throw the witness out of the witness box.

Too Unsanitary For Troops.

HAVANA, Nov. 15.—Dr. Laine expects to have his report on the condition of the military hospitals ready today. He has visited and inspected every hospital in the city and suburbs, with the view of converting them into military hospitals for the use of the American troops. But it is understood that the condition of most of the hospitals was found to be too unsanitary to warrant their being used by unacclimated troops.

Franking Hawaiian Report.

WASHINGTON, Nov. 15.—Senator Culum, chairman of the Hawaiian commission, who has arrived here, expects to call a meeting of the commission at an early date, although he has not yet fixed a date. He is now engaged in framing the report.
